(iv) Consultation - Lowering of the Site Size Threshold for the Provision of Affordable Housing - it was RESOLVED to approve the following response to the consultation

BPC does not support the proposal that the threshold for the provision of affordable housing is lowered from 25 (or 1 hectare irrespective of the number of dwellings) to 15 dwellings (or 0.5 hectare irrespective of the number of dwellings) in all settlements with a population larger than 3,000, because it fails to deliver enough affordable housing in rural areas.

Housing is required in almost all settlements in South Somerset, but the proposed policy will only affect a few settlements in South Somerset, who have already borne the brunt of new housing over the past few years. Many villages are dying because of the lack of affordable housing, young villagers are having to move into larger settlements which they do not want to do.

There is a need to deliver affordable housing in settlements with populations less than 3000 and the threshold should be reduced to reflect this need in all settlements.
